PROFESSIONAL SUMMARY

BCA student (CGPA 8.04) specializing in MERN stack development and AWS cloud deployment. Led a 4-member team on a 3-4 week academic project and contributed to a 2nd-place finish at a college hackathon. Strong foundation in C++ Data Structures and Algorithms, with hands-on experience building responsive, user-centric full-stack applications.

EDUCATION

Bachelor of Computer Applications (BCA) — CGPA: 8.04

Currently Pursuing (5th Semester)

12th Grade (Intermediate) — UP Board

Completed

10th Grade (Matriculation) — UP Board

Completed

TECHNICAL SKILLS

Programming Languages: C++ (Data Structures & Algorithms), Python, JavaScript, HTML, CSS

Web Technologies: Node.js, Express.js, React, MongoDB (MERN Stack), RESTful APIs

Cloud Computing: Amazon Web Services (AWS)

Tools & Version Control: Git, GitHub, Tailwind CSS, Bootstrap

AI-Assisted Development: Prompt Engineering

CERTIFICATIONS & TECHNICAL TRAINING

AWS Cloud Computing Training (40 Days)

Gained foundational and hands-on experience with cloud architecture and deployment.

MERN Stack Development Training (40 Days)

Developed full-stack web applications integrating MongoDB, Express.js, React, and Node.js.

Web Development Training (20 Days)

Built a strong foundation in modern web development practices, focusing on responsive design.

ACADEMIC & PERSONAL PROJECTS

Streamforge Squad | Team Leader · Academic Project · 3-4 Weeks

- Led a 4-member development squad through the full project lifecycle — task delegation, sprint planning, and core feature development — over a 3-4 week timeline.
- Presented the completed project to an evaluation panel, walking through architecture decisions and demonstrating working features live.

IND-Squad (Thematic Website) | Team Member · College Hackathon · 2 Days

- Built a dynamic thematic website in a 2-day hackathon: Day 1 focused on full-stack development, Day 2 on a 2-hour presentation and live Q&A with judges.
- Contributed to front-end structure and responsive design, helping the team secure 2nd Place among competing teams.

High-Tier 3D Personal Portfolio | Sole Developer · Personal Project

- Designed and deployed a self-branded, interactive 3D personal portfolio using React and Tailwind CSS to present projects and skills in an immersive format.
- Implemented lazy-loading for 3D assets and components to keep the interface responsive despite the added visual complexity.

HONORS & AWARDS

- 2nd Place Winner — College Hackathon Thematic Website Competition, IND-Squad project.
- Leadership Recognition — Selected to present the Streamforge Squad project as Team Leader in a technical showcase.
